

1160 x 790 x 1300 mm

60 kg

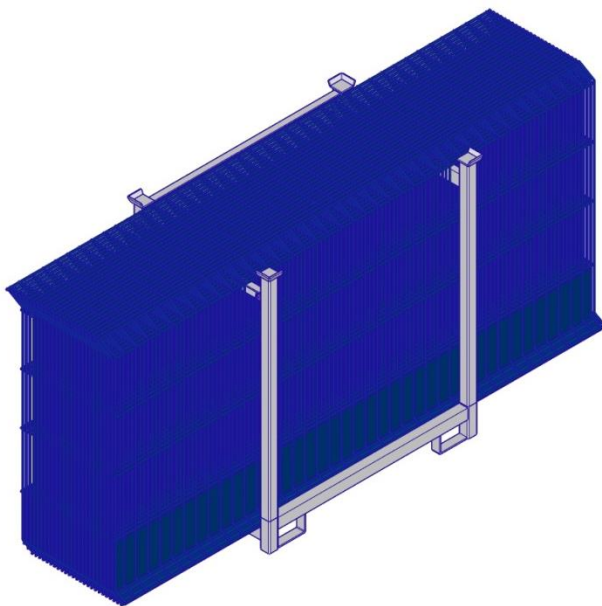

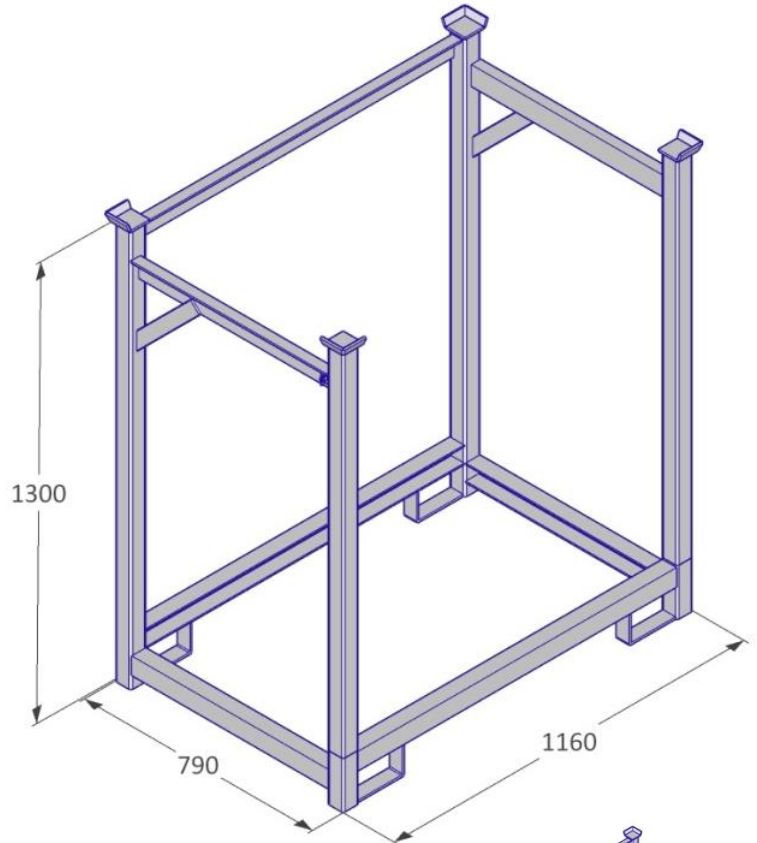

Steel / HDG

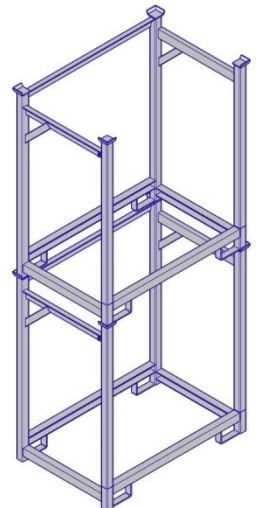

Description

25 Barriers can be stored upright and be safely transported in the Barrier Frame 25.

Two Barrier Frame 25 can be stacked easily. The welded-on steel heads on the four vertical posts of the Frame simplify the stacking process.

mm

General Safety

Health and Safety Regulation should be followed at all times. For more information → viva-tec.com/safety
