

PART NO 983501

SAFETYRESPECT SAFETY MATS

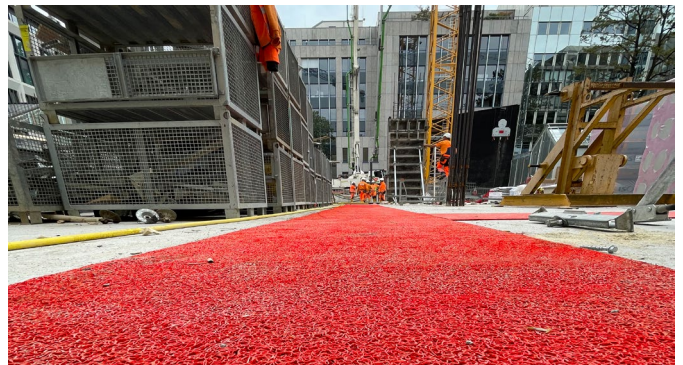

SafetyRespect Safety mats are specially designed to handle dirt and moisture coming by feet away from the working and life areas and reduce the cleaning costs.

Applications

Inside and outside in areas to prevent slipping or wear where pedestrian traffic is high. Especially preferred at construction sites, commercial offices, public buildings, apartments, wet floors in the edges of the pools, icy surfaces, tool and equipment drawers, government institutions, subway, gardens, bathrooms, sidewalks, hotels, restaurants, and sports venues.

Available upon request

- Other sizes (length, width, thickness).
- Non-slip backing that you can easily use at door entrances of commercial offices, homes, and public buildings.
- Customized colour and branding.

Product description

Material:	PVC
Thickness:	14 mm
Width:	1 m
Length:	10 m
Weight:	3 kg/m ²
Packing:	6-8 rolls/Europallet

Specifications

PROPERTY	TEST METHOD	VALUE
Density	EN 3745-505	1,50±0,03 g/cm ³
Tensile Stress	EN 3745-505	≥10,00 N/mm ²
Elongation at Break	IEC 60811-1-1	≥ 210 %
Slip resistance	DIN 51130 (Wet – 10/30 Oil)	R11 (@ 24°)
Fire resistance	Not tested*	

*Keep away from fire. PVC is flame retardent, toxic gases are produced when burning PVC.
